Town Warrant

STATE OF NEW HAMPSHIRE.

{ L.S. } TO THE INHABITANTS OF THE TOWN OF CLAREMONT, IN THE COUNTY OF
SULLIVAN, IN SAID STATE, QUALIFIED TO VOTE IN TOWN AFFAIRS:

YOU are hereby notified to meet at the lower assembly room in the Town Hall in said town, on Tuesday, the eleventh day of March next, at eight o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the ensuing year.
2. To see what sum of money the town will vote to raise to pay town officers.
3. To see what sum of money the town will vote to raise to pay incidental expenses.
4. To see what sum of money the town will vote to raise for the support of schools, for the year commencing February 15, 1902 and ending February 15, 1903.
5. To see what sum of money the town will vote to raise for the support of Stevens High School.
6. To see what sum of money the town will vote to raise for the repair of highways and bridges, for the year commencing February 15, 1902 and ending February 15, 1903, and determine how it shall be paid.
7. To see what sum of money the town will vote to raise to pay the debts of the town.
8. To see what sum of money the town will vote to raise for the support of the poor.
9. To see what sum of money the town will vote to raise for support of the fire department.
10. To see what sum of money the town will vote to raise to pay for use of hydrants.
11. To see what sum of money the town will vote to raise to pay for street lights, and raise and appropriate money therefor.
12. To see what sum of money the town will vote to raise for the expenses of Memorial Day.
13. To see what sum of money the town will vote to raise for the benefit of the American Band.
14. To see what sum of money the town will vote to raise to pay the Board of Education.
15. To see what sum of money the town will vote to raise in aid of the Claremont Cottage Hospital.
16. To choose a committee for Stevens High School for the ensuing year.
17. To determine the rate of discount the town will allow persons paying their taxes within such period as the town may designate.
18. To see if the town will vote to authorize the Trustees of Fiske Free Library to use the money now in the hands of their treasurers amounting to Three Hundred Dollars to purchase and repair books for said library.
19. To see if the town will vote to give the Fire Department the use of the town hall twice during the ensuing year.
20. To see what action the town will take in regard to the acceptance of the legacy of Helen R. Healey to the town for the benefit of the Stevens High School and in regard to the investment of the fund and the appointment of trustees therefor.

21. To see if the town will vote to sell at public auction or private sale the real estate coming to the town under the provisions of the will of Helen R. Healey, late deceased; and if so will make provision therefor and for the conveyance thereof.

22. To see what action the town will take in regard to procuring a portrait of Helen R. Healey to be placed in the Stevens High School building.

23. To see what action the town will take in regard to the sale of land belonging to the late John H. Chellis.

24. To see what action the town will take in regard to the investment of the John H. Chellis trust fund and in regard to trustees for said fund.

25. To see what action the town will take in regard to the investment of any of its trust funds and the appointment of trustees therefor.

26. To see if the town will vote to instruct the selectmen to pay to the Ladies' Union Aid Society for the benefit of the Cottage Hospital the income on the legacy to the town under the will of the late John H. Chellis.

27. To see what action the town will take in regard to the construction, management and maintenance of suitable water works for the purpose of obtaining and distributing through the village of Claremont an adequate supply of pure water in subterranean pipes for extinguishing fires, for supplying water for sewerage purposes, and for the use of the citizens, and for other purposes, and in regard to the taking and appropriating any property or property rights necessary therefor under the power of eminent domain. And to see what action the town will take as to any matters necessary incidental to the carrying out of the purposes of this article.

28. To see what action the town will take in regard to raising, borrowing or providing money to defray the expense of water works and a water supply for the village of Claremont and in regard to issuing notes or bonds of the town therefor.

29. To see if the town will vote to choose a board of trustees for Fiske Free Library as follows: One trustee for one year, one for two years, one for three years, one for four years, and one for five years, and hereafter at each annual meeting one trustee for five years.

30. To see what sum of money the town will vote to raise and appropriate for alterations and repairs of the Fiske Free Library.

31. To see if the town will vote to instruct the selectmen to appoint an agent for the sale of spiritous liquors.

32. To see what sum of money the town will vote to raise for repairs on Stevens High School building.

33. To see what action the town will take in providing accommodations to different societies in town so as to enable them to serve suppers or banquets in the town hall building.

34. To transact any other business that may legally come before said meeting.

Given under our hands and seal this twenty-second day of February, Nineteen Hundred and Two.

ALMERIN C. STONE, } Selectmen
CHARLES A. FISHER, } of
WILLIS T. FREEMAN, } Claremont.

We hereby certify that on this twenty-second day of February, 1902, we posted a certified copy of this warrant at the Town Hall, the place of meeting within specified, and a like copy at the Post Office, and also a like copy at the Selectmen's Office, public places in said town, and deposited this warrant with Francis F. Haskell, Town Clerk of said town.

ALMERIN C. STONE, } Selectmen
CHARLES A. FISHER, } of
WILLIS T. FREEMAN, } Claremont.

A true copy of warrant attest.

Property Owned by the Town.

Stevens high school building and lot.

Town hall lot, \$12,000; improvements, \$72,000.

Lobby and fixtures.

Hook and ladder house.

Steam fire engine and hose carriage.

Hose.

Library building.

Spring of water.

Two hearses.

Town safes and furniture.

Fiske free library.
 Leased land.
 Hook and ladder truck and extension ladder.
 New Hampshire law reports.
 Execution against C. N. Nichols.
 Stone crusher, boiler and engine.
 Mountain View cemetery.
 Ball property.
 765 town histories.
 Fire alarm system.
 One pair harness for hook and ladder truck.
 One spring water, pipes, etc., at West Claremont.
 One pair harness for hose carriage.
 Two pianos.
 Sleigh for carrying hose.
 One crusher building.
 Store building for tools.
 Scales and building.

List of Tools Belonging to the Town.

Two road machines.
 Two snow rollers.
 One iron roller.
 One stone “
 One iron scraper.
 Nine snow plows.
 Three plows, one evener.
 Four snow shovels.
 Twelve iron shovels.
 Four forks and iron rakes.
 Thirty picks.
 Two iron bars.
 One axe.
 One bush axe.
 One bush scythe.
 Three hammers.
 Four drills and spoon.
 Three grates, four basins.
 Four wheel barrows.
 One straight edge, one spirit level.
 Six lanterns.

Fire Department.

Chief Engineer's Report.

During the year ending Feb. 15, 1902, there were eleven alarms of fire as follows:

Feb. 22, 10:10 p. m., box 15, corner Spring and Maple streets, false.

Feb. 22, 11:10 p. m., box 25, corner Summer and Broad streets, false.

March 12, 4:40 p. m., box 16, Sears buildings, corner Myrtle and Pearl streets.

March 24, 10:35 p. m., box 16, false.

Apr. 14, 5:40 p. m., box 12, (Monadnock mills), fire in spinning room.

Apr. 28, 2:15 a. m., box 14, Blood's barn on North street.

May 10, 9:30 p. m., box 25, false.

July 5, 2:45 a. m., box 13, Cook barn, Franklin street.

Aug. 7, 2:50 a. m., box 25, Briggs buildings, corner Middle and Summer streets.

Oct. 6, 7:15 p. m., box 16, Colby residence, Mulberry street.

Jan. 6, 4:30 a. m., box 22, Lamb buildings, Union street.

BRUSH FIRES.

Apr. 17-18, Ainsworth woods, Claremont Junction.

May 8-9, wood lots on Green mountain.

May 16, Jones woods (in north part of town).

June 22, near Race's track, so called, Claremont Junction.

Aug. 22, Ainsworth woods.

Oct. 12-13, 28-29, Tyler lot, near Red Water brook.

The year 1901 was fortunate in having but few fires and no serious conflagration. No business place has suffered, and but one manufacturing plant records a fire, and in that instance (Monadnock mills) the water damage from the automatic sprinklers was more than loss caused by the flames.

Of the eleven alarms sounded, four were false, with malicious intent, and is a satisfaction to report that the guilty persons were apprehended and punished, since when there has been no more trouble from that source.

Of the other fires recorded, while the damage in some instances was severe, in but one case has the building been totally destroyed, and at no time has the fire been allowed to spread to surrounding property. The Sears and Briggs fires were as severe as any, the flames starting in the barns that were connected with the residences. At the former fire the Department contended with a strong wind that sent the flames directly into the upper stories of the dwelling, while the Briggs fire, starting in the dead of night, had enveloped the barn before discovery. One of the best stops recorded was at the Blood fire on North street. The barn where the flames broke out was closely surrounded by thickly inhabited tenements, none of which were damaged to any serious extent, and no inconvenience to tenants. The barn was destroyed, together with two horses. This fire came in the night, and had a big start before an alarm was sounded.

The Department did good work in stopping the fire that started in the Cook barn on Franklin street. This was a night fire, following a holiday, and was burning furiously when discovered. The roof and upper rooms of both the connecting and adjoining dwellings were damaged to a considerable extent. The location was right for a serious fire, a disaster that was prevented by prompt and concentrated work on the part of the firemen.

The fire in the Lamb building on Union street was of stubborn duration, owing to the construction of the house. The flames got good headway, and working into the partitions and under a slate roof, made their location difficult to find, and necessitated the use of a large volume of water.

The timely discovery by neighbors, of the fire in the Colby residence, saved the property from great damage, if not destruction, as well as loss to surrounding property, owing to location.

A number of slight fires occurred in different parts of the village, for which no alarm was sounded, and where the Department's services were not needed, owing to early discovery and quick work on the part of tenants.

The number of brush fires was about the same as in former years, but the resultant damage was not great, being mostly on recently cleared land. Brush fires are always attended with dangerous possibilities, and owners of wood lots should see that all due precautions are taken.

During the past year 500 feet of needed new hose has been added to the Department, and a fire register at the Sugar River Paper mill; the apparatus is in general good working order. Some minor additions have been made along the line of permanent improvement, and some additional call bells placed in the homes of firemen.

RECOMMENDATIONS.

Last spring a practical working test was given of the Eastman deluge nozzles; a test that was generally commended by all who witnessed it, several business men being included among the number. For a general fire in our business or manufacturing sections, these nozzles would be invaluable. They are simple and easy of operation, one man controlling a stream at any pressure. It is impossible for stones to make trouble, and they are so made that one or more streams can be cut out if necessary, without interference to others. While Claremont has fortunately escaped serious disaster from fire, such a calamity is at

any time liable to occur, and to be prepared is the best economy. I would therefore respectfully recommend the purchase of a set of these deluge nozzles.

I would again urge the importance of additions to the hydrant and electric alarm systems. A little each year would soon give protection to districts that now have no protection. I suggest that two or three of the small two-way hydrants in and adjacent to Tremont Square be removed to some of the unprotected localities, and four-way hydrants put in their places. This would give increased service for fire in any of our business blocks, with far less amount of hose than is now necessary. Not an alarm box has been added to the system the past year, and several districts are totally without alarm service, viz: lower Main street, corner Elm and North dist., South street, Draper Corner (neither hydrant or box), Franklin and School dist., Summer and Pleasant dist., and Fairview.

I again wish to thank the public for co-operation, the police for assistance, and the members of the Department for their united and splendid efforts in all instances. The personnel of the fire department is up to the standard in every way, its conduct harmonious, and every call to duty finds the men ready and willing to do their best. While no one has received injury in performance of duty the past year, it is a sad mission to announce the death of a faithful fireman—Newton W. Eddy—who for seventeen years was a member of Eagle Hose. He was active, willing and conscientious in all that pertained to his work in the Fire department, and by his death a most worthy and useful member and citizen is lost.

All of which is respectfully submitted.

C. E. SEARS, Chief Engineer.

HENRY C. SANDERS, Treas. S. H. S. Committee.

TO THE COMMITTEE OF STEVENS HIGH SCHOOL.

Gentlemen:

In accordance with your request, I herewith submit the following report.

It is to be regretted that the number of students attending the school is somewhat smaller than in years past. The whole number registered this school year is 82, or about 20 less than the normal number. This falling off is undoubtedly temporary and may be easily explained. The lack of supervision in the grades had resulted in a most unsatisfactory condition in the preparation of students entering the High School, and had reduced the number of those who could be admitted at all, while the larger classes of former years were passing out of the school. For example, in 1900 only 12 pupils were recommended by the school board as qualified to enter the High School, and in 1901 only 20. During these two years 31 were graduated.

It is encouraging, however, to note that the situation in the grades is now much more promising. Between 30 and 40 pupils in the 9th grade will be prepared to enter the High School next fall, and the classes below promise still larger acquisitions in the near future. We may, therefore, confidently expect that within a few years the school will number more students than ever before.

In this connection allow me to state my conviction that it would be to the advantage of both the High School and the grades below, if the High School building could be so enlarged and equipped as to make it possible to make the 9th grade a part of the High School. This grade could be regarded as a preparatory class and the crowded condition of the lower grades would be correspondingly relieved.

Though the numbers are fewer than we could wish, the character of the work and the spirit of the school have not deteriorated. Our graduates are admitted without examination to such of the New England colleges as admit any students in that way. Graduates of the school have successfully passed the entrance examinations of Harvard, Radcliffe and the Massachusetts Institute of Technology. In order that we might "see ourselves as others see us" you authorized me some months ago to invite representatives from Dartmouth College to examine and report on the various departments of the school. During the latter part of the fall term the English department was thus examined by Prof. Emery and his very flattering report is now in the hands of the secretary.

Though a school of this character is rightfully expected to keep its standard such that its graduates may, if they desire, continue their studies in higher institutions, yet it should never be forgotten that preparation for college is not the chief aim of a public high school. The needs of the many who will never enter college must first be considered. To this end several changes have recently been made in the course of study.

The course has been made very largely elective. Only those branches which are deemed of supreme importance, and without which no students should be allowed to graduate are now required of all. A course in Book-keeping and Commercial Law, running through all of the second year, has been introduced. A review of Arithmetic is offered in the third year. Typewriting and Stenography have been added. The number of students electing these courses demonstrates the wisdom of the additions.

In the fall of 1900 a Remington No. 9 typewriter was purchased for the use of the school. This single machine very well supplied the needs of the school during that year. This year the class is nearly double that of the preceding year, and if the members are to have a proper amount of practice another machine must be procured.

The school library numbers about 600 volumes, exclusive of public documents. During the present year these books have been catalogued, new cases purchased and placed where the books are more available for the use of the students.

It remains to say a word about the needs of the school. The demands made upon a high school of today are very different from those of twenty-five years ago. The building and equipment must be different in order to meet these demands. More rooms are needed, not for seating the pupils, but for the work of the different classes. The heating, ventilation and sanitary arrangements imperatively demand immediate attention. The roof leaks badly, and the woodwork on the outside needs painting.

A modern high school building provides for a library and reading room, a room for drawing, a room properly fitted up for the study of the commercial branches, gymnasiums, and two or three laboratories. It also has proper heating, ventilating and sanitary arrangements. The Stevens High School is as yet lacking in all these desirable adjuncts. One room serves as a laboratory for three distinct departments of science.

As the Stevens Legacy, amounting to more than \$70,000, has now been paid, and as an additional legacy of between

\$40,000 and \$50,000 has been left by the will of the late Mrs. Healey, it is hoped that the town will be able in the near future to enlarge the school building and equip it in a modern way.

Respectfully submitted,

M. C. SMART, Prin. of Stevens High School.

Report of the Treasurer of Fiske Free Library.

RECEIPTS.

Cash in treasury,	310 76
	<u>\$658 10</u>

Fiske Fund.

At the last annual town meeting it was voted that \$337.56 (the amount left from the rents of the previous year) be placed in the hands of the Fiske Free Library Trustees for replenishing the library with books. There was also in this treasury at the close of last year the sum of \$95.55, which had not been expended. Hence \$433.11 were in our hands for the purchase of books. Of this sum \$384.00 have been spent for books, leaving \$49.11 now in the treasury. It will thus be seen that the rentals from the building furnish all the money necessary for maintaining the library, and also for supplying new books. The trustees have received nothing from the Fiske Fund. The selectmen have charge of this fund, and it is understood that they have succeeded in collecting a small portion of it. The trustees gratefully acknowledge the bequest of a valuable painting from the late Mrs. Helen R. Healey, which now adorns the walls of library room.

O. B. WAY, Treasurer.

Report of Town Treasurer.

FRANK H. FOSTER, Town Treasurer.

Report of the Board of Health.

The following cases of sickness have been reported to us during the year: Diphtheria, 11; typhoid fever, 20; measles, 4; scarlet fever, 1; membranous croup, 2.

Recovery followed with all the cases of typhoid fever except two, and from the eleven cases of diphtheria we fortunately had but one death. There was also one death from membranous croup.

The past year has been a very fortunate one as regards contagious diseases. We have had a few more cases of typhoid fever than has been usual with us, but nothing in the way of an epidemic of the disease. With the exception of seven cases at West Claremont, which were near together, and came down sick about the same time, we had isolated cases, there being only one case here and there in different parts of the town. In all the cases where any cause could be found, it was due to some local unsanitary conditions, usually bad drainage.

Samples of water were sent from all our public water supplies to the laboratory of hygiene, and the report in every case was that the water was found to be excellent for drinking purposes.

We give a few extracts from the health laws of the state:

“Whenever any person knows or has reason to believe that any member of his family or household (boarder, roomer, or visitor) has either smallpox, diphtheria, membranous croup, scarlet fever, typhoid fever, measles, or any other malignant communicable disease, he shall, within twenty-four hours, if no physician is in attendance, give notice thereof to the local board of health of the town or city in which he resides, and such notice shall be given either verbally to one of the health officers, or by a communication addressed to the board of health and duly mailed within the time specified.”

“No parent, guardian, person or persons having the custody of any child, shall permit such child, if infected with any communicable disease, or has been exposed to such, to attend any public or private school.”

“No child shall attend any public, parochial, or private school unless he has been vaccinated, or has had the smallpox, and this section shall be enforced by the board of health.”

The law in regard to vaccination is being enforced, and Dr. H. C. Sanders, one of the school board, has been appointed to vaccinate all school children who have not been successfully vaccinated.

There is one other matter about which we feel obliged to say something, and that is in regard to the town dump.

It must be evident to everyone that a suitable place at which to dump rubbish is a public necessity. It is also evident that there are some people who think that the town should not only furnish a place for a dump, but also a man to clean it up every now and then. We believe this to be entirely unnecessary and wrong. If the town furnishes a dumping place, it is only just and right that all those who take rubbish there should put it over the bank, and out of the way of the next man who may come along, and not dump their load in any way to get rid of it with the least trouble to themselves. We hope there will be no trouble about this in the future.

During the past year the state laboratory of hygiene has been established at Concord, and is under the management of the state Board of Health. The state board publish each month “The Sanitary Bulletin,” which gives information in regard to matters of health, and is free to any citizen of the state who will take the trouble to write to the secretary of the state Board of Health for it.

We wish to express our gratitude to the physicians of the town, and all others who have been helpful to us.

RUFUS L. HOWE,	} Board of Health.
G. A. ROWELL,	
A. L. MARDEN, M. D.	

Auditor's Certificate.

We, the undersigned, auditors of the Town of Claremont, have examined the foregoing accounts of the Selectmen, Town Treasurer, Highway Agent, Overseer of the Poor, Treasurer of Stevens High School Committee, the Financial Agent of the Fiske Free Library, and the Treasurer of Claremont Town School District, the Alden Prize Literary Fund, the Collector of Taxes, and find the same correct with proper vouchers.

H. W. PARKER,	} Auditors.
E. J. TENNEY,	
JOHN M. WHIPPLE,	

VITAL STATISTICS.

In compliance with an Act of Legislature passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the Annual Report," we submit the following:
